DRIVER CONNECT

REPLACE YOUR PAPER BASED CHECKS FOR GOOD

Drivers Daily Duty 'Walkaround' & Defect Reporting
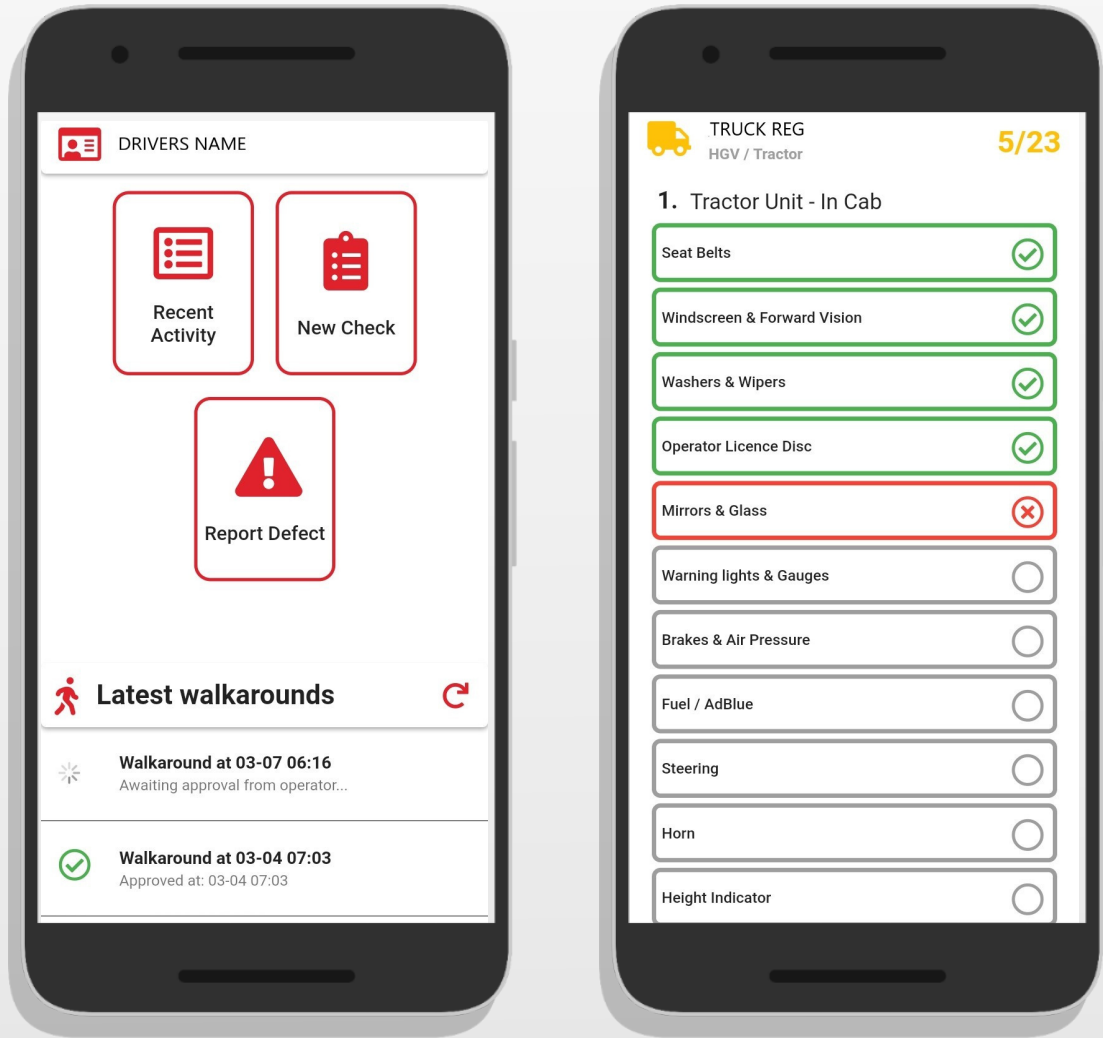

### DRIVER CONNECT MOBILE APP

Available on iOS & Android our 'DRIVER CONNECT' mobile app is intuitive and user friendly.

With fully customisable checklists specific to YOUR operation and YOUR vehicles, your Drivers will be engaged from the outset by completing meaningful asset checks.

Geo stamped reports and recorded activity time allow you to identify whether checks are being completed correctly pinpointing driver training requirements.

View historic reported asset defects and link together providing you with a complete picture of events.

- Intuitive, tap through check process
- Customised check lists with questions written by YOU
- Asset specific checklist pull through
- Daily duty walkaround checks & adhoc defect reporting
- Capture defect images with ease
- Offline reporting capability
- Roadside access to historic checks & defect logs
- Real-time operator to driver 'approval for use' authorisation
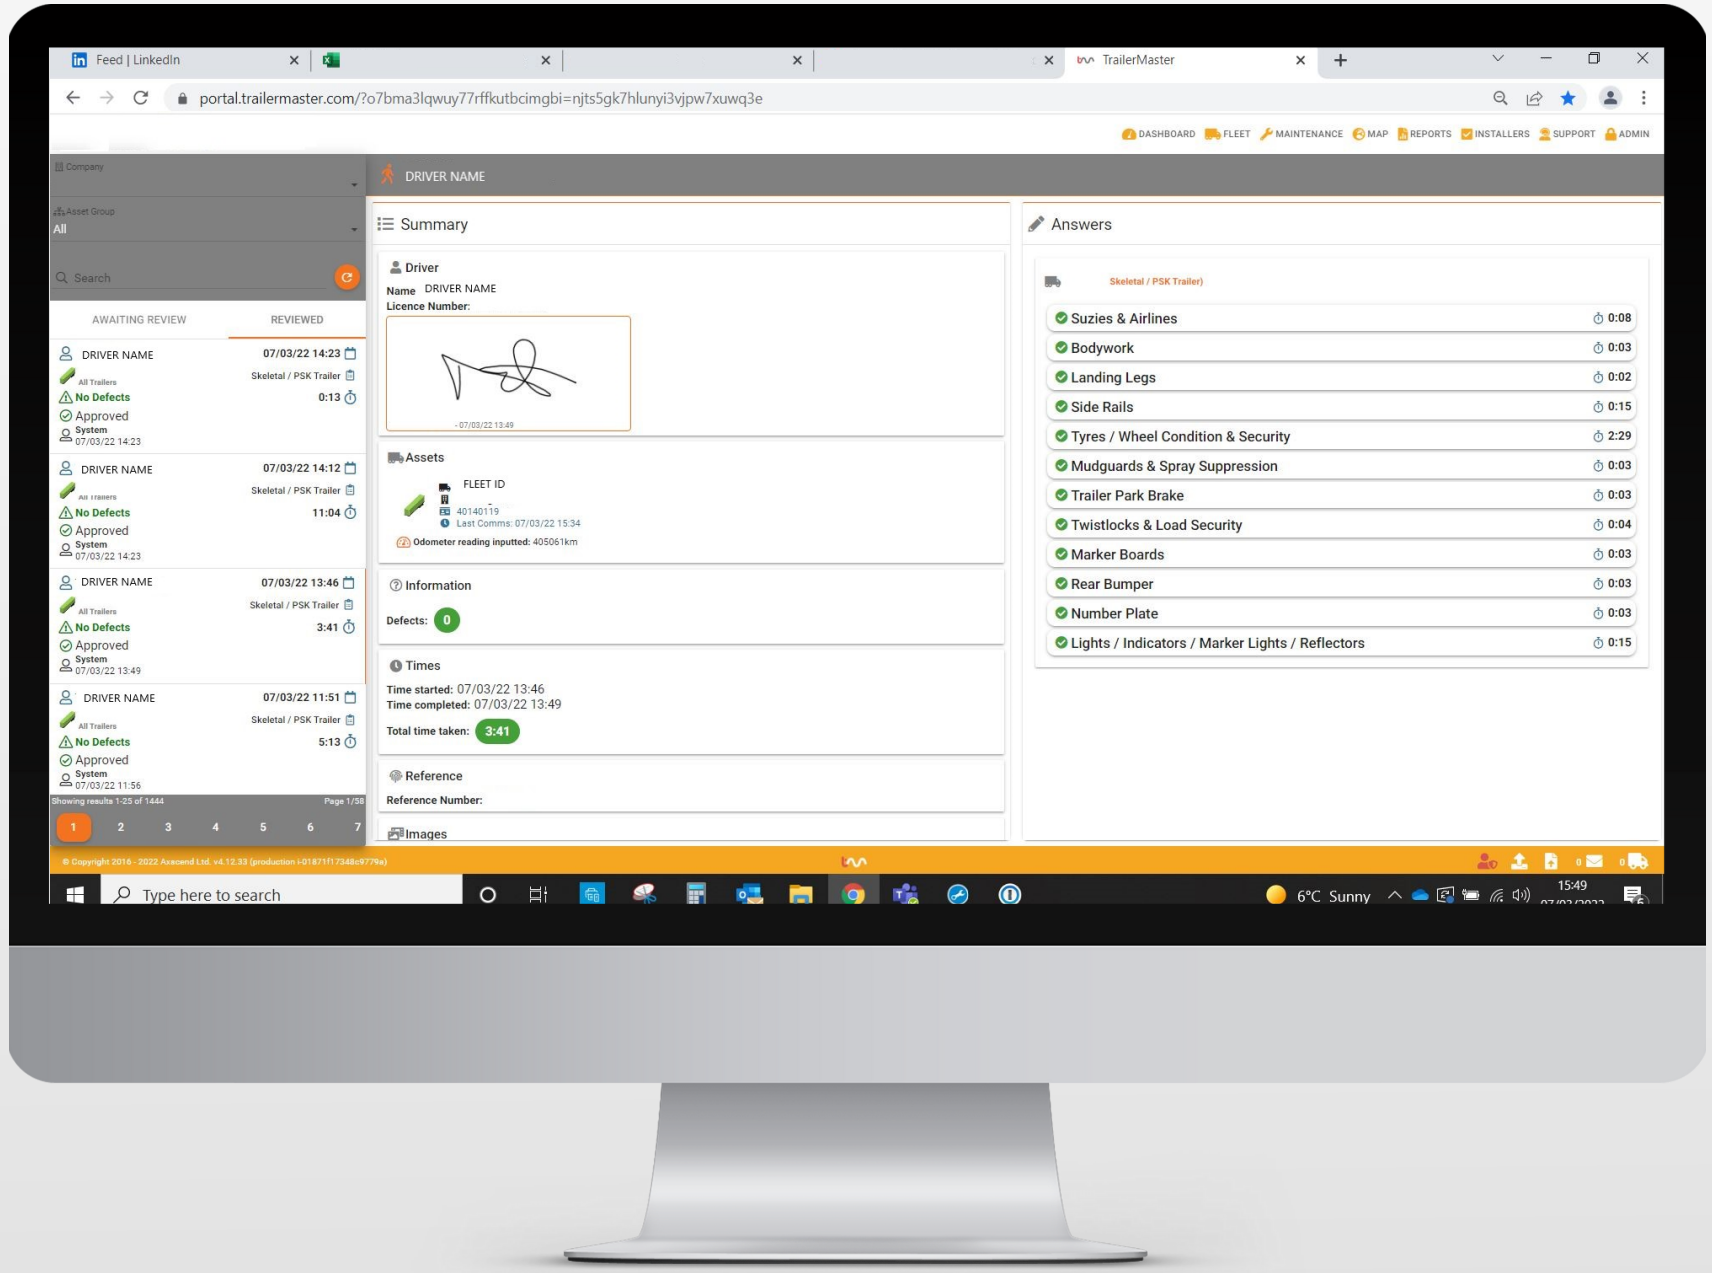

- Geo stamped timed activity check list
- Complete audit trail of driver activity & asset defects
- Asset defect 'linking' function
- Export defect information
- Complete seamless integration with our COMPLAINCE CONNECT solution
- DVSA 'Earned Recognition' Approved

BACK OFFICE MANAGEMENT

Monitor driver activity in real-time.

Review incoming defects immediately and authorise or decline vehicle use at the touch of a button notifying the driver.
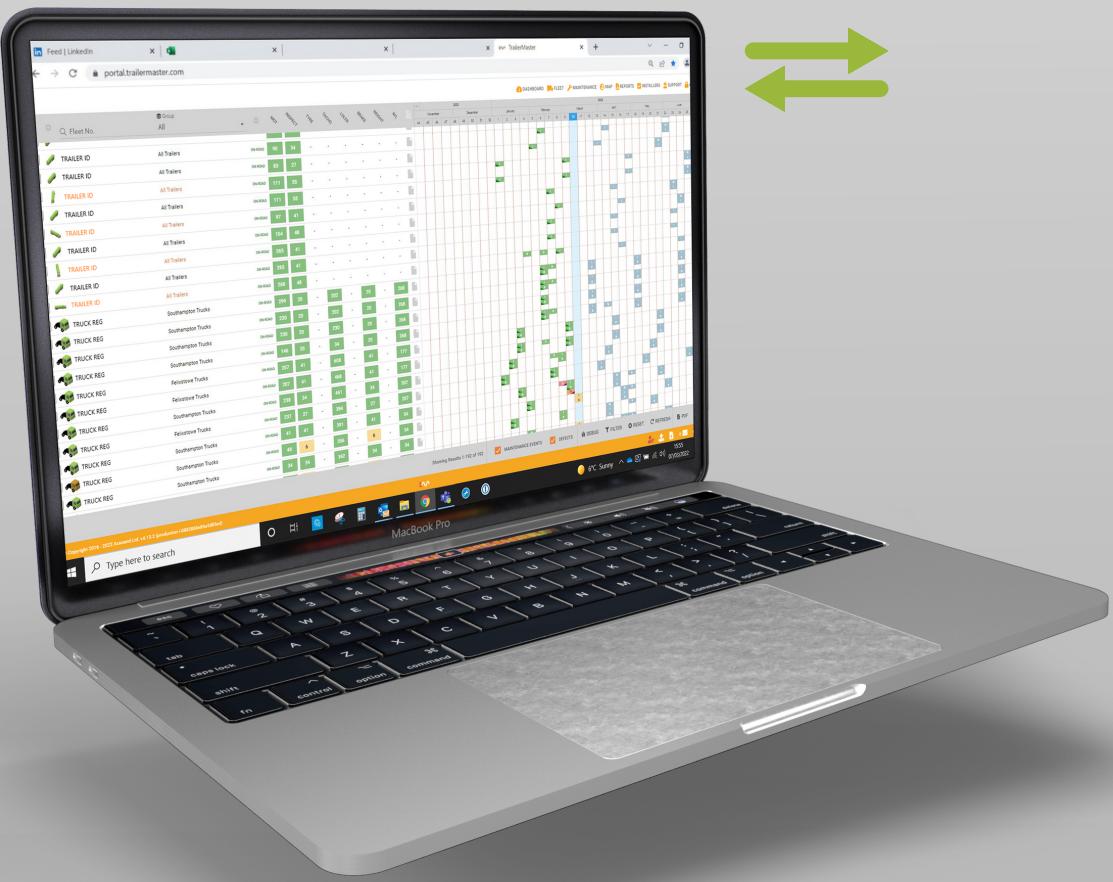

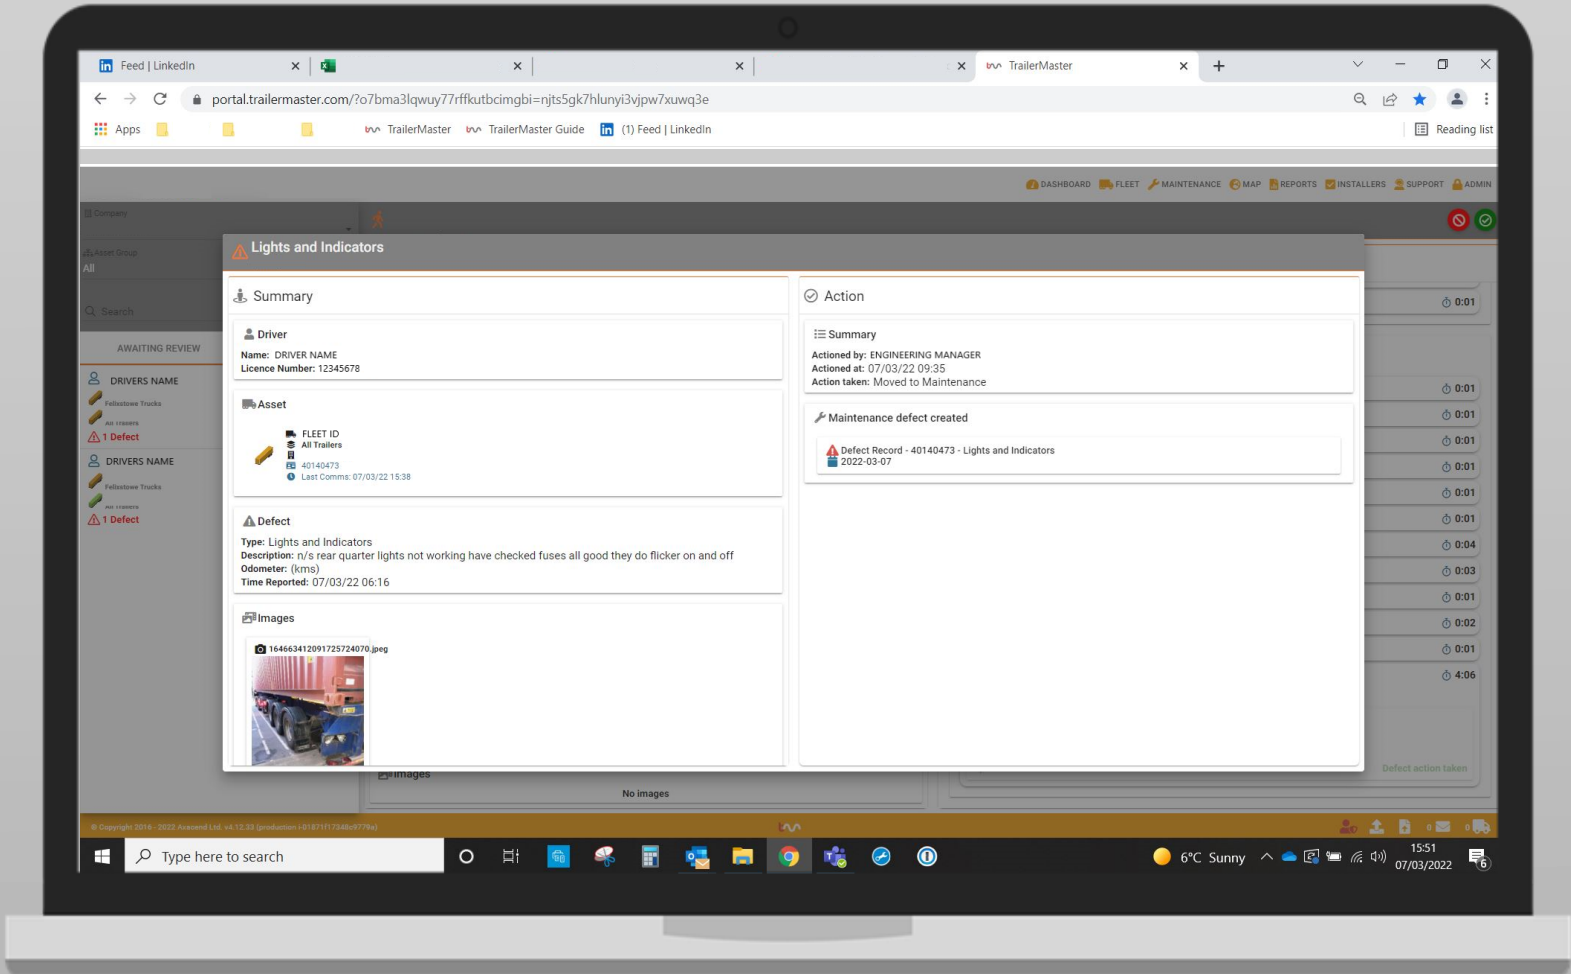

COMPLIANCE CONNECT INTEGRATION

Close the loop with full integration to our COMPLIANCE CONNECT electronic maintenance scheduling & document capture Software which is DVSA Earned Recognition Approved.

DVSA EARNED RECOGNITION
