

TPMS

Tyre Pressure Monitoring System

* Internal & External Sensor Options Available

TrailerMaster TPMS can save you thousands of pounds in fuel and breakdown costs.
As an investment in your trailer fleet, effective tyre pressure monitoring delivers year on year savings, as well as improved efficiency and safety.

- Reduces breakdowns
- Prevents blowouts and fires
- Reduces fuel usage saving you money
- Reduces your fleets CO2 emissions
- Saves you hours of time spent on roadside checks, repairs, breakdowns etc

Our Tyre Pressure Monitoring System (TPMS) enables you to view the tyre pressures of your fleet, in real-time.

We are independent of tyre suppliers, therefore we can work with you to ensure you can monitor every single tyre within your fleet, no matter the supplier of the tyre.
